

Muhammad Abdullah

Software Engineering Student | Cloud & AWS Enthusiast

Lahore, Pakistan | abdullahasif10p@gmail.com | [linkedin.com/in/abdullah-asif-a3a341316](https://www.linkedin.com/in/abdullah-asif-a3a341316) | github.com/nicocodes9

SUMMARY

Software Engineering student with hands-on experience building open-source projects and AI-powered web applications. Skilled in React.js, JavaScript, and Python, with knowledge of Amazon AWS, Cloudflare, and networking fundamentals. AWS Cloud Practitioner and CCNA certified, with a strong interest in cloud and AWS-focused engineering roles. Passionate about continuous learning, collaborative development, and building well-designed, technically sound solutions.

TECHNICAL SKILLS

Languages: JavaScript, Python, C++, TypeScript, HTML, CSS, SQL, PHP

Frameworks & APIs: React.js, Node.js, Next.js, Tailwind CSS, Fast API, REST API, OpenAI API (and compatible LLM APIs), Cloudflare Workers AI

Cloud & Infrastructure: AWS (EC2, S3, RDS, IAM, VPC), Cloudflare (Pages & Workers, Wrangler CLI, Turnstile), Vercel

Databases: MySQL, PostgreSQL, Amazon RDS, Cloudflare D1, Cloudflare Workers KV

DevOps & CI/CD: GitHub Actions, Wrangler CLI deployment, automated build/deploy pipelines, CI testing

Tools: VS Code, PyCharm, Git & GitHub, Vite, Linux, Cursor, Replit, Antigravity

CERTIFICATIONS

- AWS Cloud Practitioner Essentials – Foundational knowledge of cloud concepts, AWS services, and global infrastructure
- Cisco CCNA Networking Basics – Networking protocols, IP addressing, and network architecture
- Google Cybersecurity Professional Certificate – Threat detection, risk management, and security operations
- Cisco C++ Programming Essentials – Core C++ concepts and object-oriented programming
- Google AI Essentials – Core AI concepts, data handling, and deployment strategies

PROJECTS

Cloud Resume Challenge Serverless Portfolio & Visitor API [Link ↗](#)

- Architected a full-stack serverless app on **Cloudflare Workers, Pages, and KV** as free-tier equivalents to **AWS Lambda, S3+CloudFront, and DynamoDB**
- Built a visitor-counter **REST API** backed by **Workers KV**, validated with a **Vitest test suite** and gated by a **CI/CD pipeline** (lint → test → deploy) via **GitHub Actions**
- Designed with **platform-agnostic architecture**, applying patterns transferable to **AWS Lambda/API Gateway**

DeepSeek Chatbot Web App [Link ↗](#)

- Built a **React.js chatbot** powered by the **DeepSeek LLM** with a responsive, semantic UI, minimal resource usage, and real-time interaction
- Deployed via **Cloudflare Pages and Workers** with efficient release workflows and asset optimization

Movies Info Web App [Link ↗](#)

- Built a responsive movie discovery app with **React.js, Vite, and modern JavaScript**, with search and persistent favorites.
- Integrated the **TMDB API** for real-time movie data and implemented **Cloudflare Turnstile** for bot protection.

Currency Converter Web App [Link ↗](#)

- Developed a responsive currency converter using **JavaScript** with real-time **exchange rate API integration**
- Deployed for free public access via **Cloudflare Pages**

Desktop Widget for Windows [Link ↗](#)

- Designed a minimalist transparent desktop clock widget using **Electron and JavaScript**, consuming **88% less RAM** compared to alternatives. Integrated with the Windows wallpaper with non-intrusive, resource-friendly performance

EDUCATION

Bachelor of Science in Software Engineering

Virtual University of Pakistan

Jul 2023 – Present

Intermediate (Pre-Engineering)

Govt. Post Graduate College, Gujranwala

Jul 2021 – Jul 2023

LANGUAGES

Urdu: Native or Bilingual Proficiency

English: Full Professional Proficiency
